Daycare

Spring break "Spring full of Nature"

The parents of the after-school care have received our activity programme via the parent app. It will be a week full of adventures related to nature. We will be making vegetable gardens and will be visited by REAL reptiles. It's going to be exciting!

Cooperation between Nursery and Toddler Care

After the spring break, the nursery and toddler care will start working on the theme "Spring". Both groups will work on the theme in their own way. The toddlers at the playgroup will work on the theme "The flower shop". The toddlers at the nursery will join in as much as possible.

Wednesday 11 February: theatre for BSO Weidehommels

On Wednesday 11 February, all children from BSO Weidehommels will be performing in their school play. The performance will take place at IB. That is why we will be switching the BSO children on this day. The BSO children will start their day in their own group. Around 2 p.m., we will switch groups. The children from the oldest after-school care group will come to

RH. The youngest children will go to IB. This way, the children will already be present at the building for their theatre performance. If you have any questions, please contact Mr Daan.

Education

Theatre performance for preschoolers

As you know, the kindergarten students will be performing for their parents/carers on Wednesday 11 February. They will be performing on stage in the IB building. Below is a reminder of the times at which each group must be present:

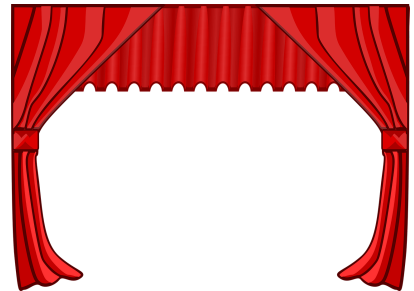

Group D is expected at school at 2:45 p.m.

Group B is expected at school at 3:45 p.m.

Group C is expected at school at 4:45 p.m.

Group A is expected at school at 5:45 p.m.

The invitation, which you have already received via Social Schools, states which entrance your child's group should use. Please arrive on time, as we only have 15 minutes to get the children ready for the performance.

First Lego League

After intensive preparation, the Eglantier students who participated in the First Lego League competition won two prizes on the final day. FLL is an international technology competition for children aged 9 to 15. Each season, the children work on an innovation project, in which they tackle a problem. They also present a robot design.

The preparation took place on many Sunday mornings and even during the

Christmas holidays! A large group of parents provided guidance. The finals took place in the TU industrial design building. The atmosphere was excellent throughout. Congratulations to everyone and thank you for your efforts!

Miss Júlia introduces herself

Hello!! My name is Júlia Raya, and I come from Barcelona, Spain. I am currently in my final year of a double degree in Early Childhood and Primary Education, with a specialisation in English, at the University of Vic.

The next 9 weeks, I will be assisting and teaching alongside Ms Kseniya and Ms Roos, working with students from group 5/6 to group 8. I am very excited to support the pupils in their learning and to contribute to the classroom environment. I am truly grateful for the opportunity to be part of this school community, to experience an international setting, and to learn from new teaching philosophies and approaches. I look forward to growing both professionally and personally during my time here.

After-school activity - guitar lessons

After school, Hans Hendrik gives guitar lessons. There are currently two places left. If your child is interested or you would like more information (e.g. about the day and time), please email Mr. Hans Hendrik: elektrikhendrik@gmail.com.

Storytelling breakfast at school

On Wednesday 21 January, the children at school enjoyed a cosy "storytelling breakfast". Each class celebrated this moment in its own way: with beautiful stories, listening together and starting the day quietly, or first getting some exercise during gym class and then enjoying the "storytelling breakfast" as a snack.

The Parent Council provided bread and spreads, carefully taking allergies and intolerances into account so that every child could enjoy the event. It was a lovely morning that brought many happy faces and a great start to the school day. Thank you to everyone who made this possible!

Coffee Morning - Wednesday 25 February 2026

On Wednesday 25 February 2026, there will be another coffee morning at IB, from 8:30 to 9:30 AM. The theme is the Delft Pass. The new Delft Pass year starts on 1 March. During the coffee morning, there will be time to ask questions and get information about what the Delft Pass is and how to use it. Feel free to join us for a cup of coffee or tea!

Important information: Renovation of neighbours on Roland Holstlaan

We would like to inform you that our neighbours in the flat on Roland Holstlaan will be starting a large-scale renovation on Monday 9 February.

The construction company is aware of the presence of our school and our drop-off and pick-up times. Nevertheless, the inconvenience will be noticeable. Parking behind the IB building and the parking spaces on Roland Holstlaan will be limited due to the work.

Our request to you:

- Please walk or cycle to school as much as possible.
- If you do come by car, please park only in the designated parking spaces.
- If necessary, park a little further away in the neighbourhood to avoid congestion.

Together, we can ensure that the square and the surrounding area remain safe for our children during this work. Thank you in advance for your cooperation!

Safety of our children: Your report is needed NOW!

Dear parents/guardians,

Every parent wants their child to arrive at school safely. However, we daily witness situations on the Roland Holstlaan and the Jan Campertlaan that are frankly dangerous. At the request of the municipality, the Parents' Council recently took photos of the traffic situation and the images speak for themselves: young cyclists are regularly squeezed between parked cars and moving traffic.

Why we need your help now? The Delft municipality will only take action if they receive a sufficient number of official reports. Without your report, nothing will happen. No "kiss & ride" zone, no one-way traffic, no improvements. Do you want the municipality to investigate this situation seriously? Please make a report immediately via the BuitenBeter app. The more they hear from us, the higher our school will rise on their priority list.

The difference between "just a second" and "life-threatening".

We understand the morning stress and the necessity of using a car. But what might feel to you like "just a quick stop" creates a life-threatening blind spot for a child on a bicycle.

We therefore urgently ask you to:

- **Park exclusively in the designated parking spaces, even if it means walking a short distance.**
- **Keep the passageway clear for children arriving by bike or on foot.**

By adding just a few minutes of walking time per parent, we can prevent accidents together. Let's not wait until a serious accident actually occurs.

Thank you for your immediate cooperation and for filing a report!

Kind regards,

The Parents' Council

Green fingers wanted! Can you help our garden blossom?

Do you love the outdoors and enjoy digging your hands into the soil? We are looking for an enthusiastic volunteer to help us maintain our school garden and playground!

What will you be doing?

- Maintenance: Pruning, weeding and caring for the plants.
- School garden: Helping with school garden activities on Wednesday mornings.
- Keeping things tidy: Occasionally sweeping the playground so that everything looks spick and span again.

Would you like to contribute occasionally (or on a regular basis) to a pleasant, green play environment for our children? Then please contact Yvonne den Haan. We would love to hear from you!

The Toy Bank: a store without a cash register

I recently visited the Toy Bank—a kind of store, but without a cash register. Families who are struggling financially can come here and choose toys for their children free of charge. This way, we ensure that every child can play and have fun.

The toys at the Toy Bank are second-hand, but of good quality. The idea behind this is that we reuse things and thus also take care of the world around us. Because every child deserves nice toys. The Toy Bank can also be helpful at other times, for example for a birthday, or if your child has been invited to a party and needs a gift. In addition, it is always possible to donate toys. Do you have toys at home that are still in good condition and complete? Then you can make another child very happy with them. Would you like to visit the Toy Bank or do you think this might be something for your family? Please feel free to contact me. If necessary, I can help you with a voucher to visit the Toy Bank. Together, we can ensure that all children can participate.

Delftpas

Do fun things, for free or at a discount. With the Delftpas, you can enjoy the best activities in Delft and the surrounding region. Go to the cinema or a museum for free. Or visit the zoo and have a cup of coffee in the city.

If you have a Delftpas, please note that it is valid until 28 February 2026. If you want to continue using your Delftpas for another year after this

date, you must renew it in time. Please note: Your Delftpas has a certain credit balance. You must renew your Delftpas in order to be able to use this credit balance again.

If you do not yet have a Delftpas, you can find more information on the website below: <https://www.delft.nl/vrije-tijd/delftpas>

Information about school costs via the Delftpas can be found here: school costs via delftpas.

NLdoet – Will you help?

On Saturday 14 March, we will be participating in NLdoet, the largest volunteer day in the Netherlands! This is the perfect opportunity to tackle jobs that we don't normally get around to doing. These include minor repairs, painting and refurbishing the outdoor area. We can use all the help we can get! Come and help from 9 a.m. to 12 p.m. or for part of that time. Many hands make light work!

Would you like to help? Sign up via Social Schools with Corine Dijkshoorn or Yvonne den Haan.

Thank you in advance, we look forward to making it a fun and meaningful morning together!

🌼 The Daffodil Campaign is coming up again! 🌼

Spring is in the air, which means we are getting ready for one of our favourite traditions: the Daffodil Campaign! After the success of two years ago, we are aiming for another record-breaking result this year.

We would like to inform you now so that your child can sell pots of daffodils to family, friends, neighbours or at your work in the coming period (perhaps during the spring break). The children will receive an order list before the holidays and will hand it in on Monday 2 March. The pots will then be distributed on Wednesday 25 March. So everyone can enjoy the yellow flowers at Easter. We will use the proceeds for multilingual books in the library and for the 60th anniversary of our school in the 2026-2027 school year.

Let's make it a blooming success together!

Kind regards, The Friends of De Eglantier

Haagjes

The link below will take you to the latest edition of Haagjes. It contains an overview of fun activities until the spring break.

Technical Community Centre

For children aged 8 to 14 who are curious about engineering and technology.

What is the Technical Community Centre?

The Technical Community Centre is a free after-school programme where children are introduced to engineering and technology.

Registration is a one-time process and without obligation. Your child can participate whenever it suits them; regular attendance is not required. Please visit the website for more information.
